

# we BELIEVE...

## This is our Healthy for Life™ philosophy.

It's simple. We believe that good food is essential to a healthy life. So our commitment is to help you power your life on campus with good food and a dining program that makes it easy for you to eat right.

It's why we have healthy and wholesome choices available every day. And it's why we have nutrition and wellness programs that help take some of the mystery out of healthy living.

Here are just a few of the many steps that we are taking to support your health and well-being.

### healthy food fuels healthy people

We believe that cultivating an environment filled with an abundance of wholesome, fresh, nutritious foods is the single most important thing we can do to create a culture of health on campus.

### health and flavor go together

We believe that healthy food can and should taste great. The best way to encourage healthier choices is to make 'good-for-you' food delicious and satisfying. Our talented chefs find new ways to do this every day.

### our food should fit your life

We believe that variety and choice are the key to satisfying your diverse nutritional needs and dining preferences. We pride ourselves on creating menus and environments that make it easy for you to find the FOOD THAT FITS YOUR LIFE®.

### we can make a difference, every day

We believe that there are thousands of ways to help build a healthy campus dining experience — ingredient by ingredient, recipe by recipe, meal by meal and location by location. Through big changes or small, we seek ways to help you live a healthier life.
